Education

Varendra University

2026

Bachelor of Science in Computer Science and Engineering – CGPA: 3.31/4.00

Rajshahi, Bangladesh

- Relevant Coursework: Data Structures, Algorithms, Database Systems, Web Technologies, Machine Learning
- Active member of university programming and IoT clubs

Shahid A.H.M. Kamaruzzaman Govt. Degree College

2020

Higher Secondary Certificate (HSC) – GPA: 4.58/5.00

Rajshahi, Bangladesh

Rajshahi Shikkha Board Govt. Model School And College

2018

Secondary School Certificate (SSC) – GPA: 4.73/5.00

Rajshahi, Bangladesh

Experience

Branding and Promotion

October 2022 – 2023

Hult Prize at Varendra University

Rajshahi, Bangladesh

- Coordinated digital marketing efforts, increasing event reach and participation by 40%
- Designed promotional materials using Adobe Illustrator and Photoshop
- Worked in cross-functional teams to achieve event objectives
- Managed social media campaigns across multiple platforms to promote entrepreneurship initiatives

Projects

Job Application Tracker | *HTML5, CSS3, JavaScript, DaisyUI, Tailwind CSS* | [Live Demo](#)

2026

- Developed interactive job tracking dashboard with real-time statistics for total, interview, and rejected applications
- Implemented dynamic filtering system allowing users to view applications by status (All, Interview, Rejected)
- Created responsive job card layout with delete functionality and status update buttons
- Built fully responsive UI using Tailwind CSS and DaisyUI for seamless experience across all devices

Payoo Mobile Banking App | *HTML5, CSS3, JavaScript, DaisyUI, Tailwind CSS* | [Live Demo](#)

2026

- Built responsive mobile banking application with secure login authentication using PIN verification
- Implemented financial features including add money, cashout, send money, and transaction history
- Designed mobile-first UI using DaisyUI and Tailwind CSS framework for optimal user experience
- Developed dynamic balance tracking and real-time transaction updates using vanilla JavaScript

Event Management Web App | *Django, JavaScript, REST APIs, CSS Grid* | [Live Demo](#)

2025

- Developed full-stack responsive web application with Django backend and RESTful APIs
- Implemented SMTP email notification system for automated user communications
- Built user authentication system with role-based access control
- Designed and integrated PostgreSQL database with optimized queries for efficient data retrieval

TechWave Podcast Website | *HTML5, CSS3, Flexbox, Grid* | [Live Demo](#)

2025

- Designed and developed a fully responsive podcast website optimized for mobile, tablet, and desktop devices
- Implemented modern UI layout using CSS Flexbox and Grid with structured semantic HTML5
- Built responsive navigation with hamburger menu and embedded multimedia content (YouTube, Spotify)

IoT-based Fire Safety Alert System | *Arduino Uno, GSM Module, C++* | [Demo Video](#)

2024

- Designed real-time fire detection system with GSM alerts and buzzer notifications
- Optimized voltage regulation for reliable sensor performance
- Integrated flame sensors and temperature monitoring for accurate fire detection
- Programmed automated SMS alerts to emergency contacts using GSM module

Personal Portfolio Website | *HTML5, CSS3, JavaScript, Flexbox* | [Live Demo](#)

2025

- Created responsive portfolio showcasing projects with modern web design principles
- Implemented smooth scrolling animations and interactive UI elements using vanilla JavaScript
- Designed mobile-first approach ensuring optimal viewing experience across all devices

Certifications

Machine Learning Training <i>RUET IoT CLUB</i> Credential	Oct 2025
UI/UX Design <i>Business Automation Ltd</i> Credential	Sep 2025
Web Development (HTML, CSS, JS) <i>IBM</i> Credential	May 2025
AI for Beginners <i>HP</i> Credential	Feb 2025
Regular Expressions in Python <i>Coursera</i> Credential	Sep 2024
Python & Django Framework <i>Udemy</i> Credential	Feb 2024
Cloud Computing <i>IBM</i> Credential	2024
CSS & HTML <i>Udemy</i> Credential	Aug 2023
Java Programming <i>Great Learning</i>	May 2022
C++ <i>Sololearn</i> Credential	Apr 2022

Technical Skills

Programming Languages: Python, JavaScript, SQL, Java, C++
Web Development: Django, Flask, REST APIs, HTML5, CSS3, Flexbox, CSS Grid, Tailwind CSS
Database & Tools: MySQL, PostgreSQL, Git, GitHub, Postman
Design: Adobe Illustrator, Photoshop, Video Editing, UX/UI Design
Machine Learning: Regression, Classification, NLP, IBM Cloud, Data Visualization, AI Fundamentals
Other Skills: Problem Solving, Team Collaboration, Project Management, Agile Methodologies

Achievements & Leadership

Leadership Role - Led branding and promotion team for Hult Prize at Varendra University - Coordinated with team of 10+ members to organize university-level entrepreneurship events	2022 – 2023
Academic Excellence - Maintained CGPA of 3.31/4.00 while actively participating in extracurricular activities - Completed 10+ professional certifications in web development, machine learning, and cloud computing	2021 – 2025

Interests

Professional: Full-Stack Development, Artificial Intelligence, IoT Systems, Open Source Contribution
Personal: Technology Blogging, Digital Design, Continuous Learning, Problem Solving Competitions
